

Carbon Nanoprobes is Hiring!!!

Backed by the State of Pennsylvania, Keiretsu Forum, and our Angel investment network, CNP is excited to have just arrived from our previous home in Seattle, WA to our new global headquarters and production facility in Malvern, PA. CNP is a leading edge MEMS device manufacturer specializing in the mass production of AFM single wall carbon nanotube tips for Basic Research, Semiconductor, and Bio/Pharma high resolution imaging.

Starting May 1st, we will be supplementing our scientific, production, and operations infrastructure. We are looking for highly motivated and experienced staff in the following areas.

- AFM Scientists
- AFM Tool Technicians
- MEMS Scientists
- Book Keeping / Admin Mgmt
- Administrative Assistants
- Science and General Business Student Interns
