

# Read Carefully And Earn **Money** \$\$\$ For Your Research!

In consideration of the current economic climate, CNP has decided to sponsor its own “stimulus” package.

We are going to give out **\$5,000** in cold, hard cash to the first research group that publishes an image captured with a CNP product.

### The rules are very simple:

- The publication must be a trade journal or periodical for which AFM data is commonly published
- If a protein image is published, the publication must be a relevant biological journal
- CNP must be referenced in the article as the supplier of the probes that created the relevant AFM image(s)
- The winner will be determined by the date of publication; in the event of a tie, the winner will be determined by the date of manuscript submission
- Both the winner and runner up will receive spotlighting on the CNP website

**So hurry up and start imaging!**

Please email [info@cnprobes.com](mailto:info@cnprobes.com) to submit your entry.

Sincerely,

**Brian Ruby**  
Chief Executive Officer

**See more.**
